Title of the Activity: Chess Competitions for Girls Students

Date of Conduction: 11/08/2022

Number of Students Involved: 4

Objectives:

To “checkmate” the opponent by capturing his/her king in an inescapable way. In addition to checkmate, the game can also be won by voluntary resignation by the opponent player.

Description:

Chess tournaments are typically 3-5 rounds. Participants will play opponents with scores similar to theirs. For example, if a player has won their first 3 games, they will be paired during round 4 against another player who has done the same thing.

The Candidates Tournament is the biggest chess tournament in the world. Several of the other most prestigious tournaments worldwide feed directly into qualifying for one of the eight spots the Candidates Tournament has to offer.

A chess tournament is a series of chess games played competitively to determine a winning individual or team. Since the first international chess tournament in London, 1851, chess tournaments have become the standard form of chess competition among serious players..

The Physical Education Department of Government Degree College, Chebrole has conducted a Chess Competitions on the occasion of Independence Day Celebrations at our college campus. The principal Dr.V.Sridevi speech; she highlighted the importance of the Chess Competitions for Girls Students.

The Chess Competitions of the female students was concluded with heartfelt vote of thanks given by the Incharge of Physical Education Department, Sri.P.Ganesh and the whole programme was coordinated by him. All teaching & Non-teaching staff and students are participated in this programme and made it grand success.

Outcomes:

- 1) Students are motivated by the speeches of principal and lecturers about the importance of Chess Competitions.
- 2) A game of chess ends when a player puts the opposing player's king in a position that cannot avoid capture (checkmate). A game can also be won or lost through concession. A chess match can also end in a draw.
