**DATA SCIENCE
GUEST LECTURE PROGRAMME**
BRIEF REPORT

Objective:

The main focus of this Guest Lecture was to create an awareness on the 'Data Science Analytics' domain, which is popular in all academia, business sectors, research and development etc, to make effective decisions in day to day activities.

Report:

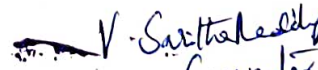

Resource Speaker, Dr. O. Nagaraju began the lecture by defining Data Science as a study which deals with identification, representation and extraction of meaningful information from data sources to be used for business purposes. He also explained the existence of Data Science concepts in diverse fields. He elaborated an example usage of data science in Textile Engineering. He explained the data science oriented algorithms through various case studies, which not only helped the students understand the concepts with ease, but also provided an insight on the real-time applications in the aforementioned domain.

Outcome of the Event:

Students gained knowledge in Data Analytics concepts which assists in decision making and justifying several technical models. They gained awareness on various application areas of this technology such as Hadoop and cloud-based analytics to minimize the costs.
